

SHE HOLDS THE KEY

On the eve of the 2020 election, a group of women leaders were having a conversation about who was going to decide the winners and they all agreed: women would be the key. Women are the key - the key to more effective public leadership, the key to more comprehensive policies, the key to better communities across the state, and country.

Armed with this belief, those leaders formed She Holds the Key Michigan to reach women across the state to become public leaders. Women are more than a coalition. Women make up 51% of the population in Michigan, yet they are only 36% of the Michigan Legislature.

The only way to increase the number of women serving in elected and appointed position is by recruiting more women to run, arming them with the knowledge to seek office, and supporting them with a mentor network. She Holds the Key Michigan works daily to cultivate center and center-right women to enter the political space by providing them with the education and training needed to be successful.
